

CAPABILITY STATEMENT - DATA MANAGEMENT

CORE COMPETENCIES

Dassault Systèmes SolidWorks Corp. (DS SolidWorks) makes software that enables federal agencies, the Department of Defense (DOD), and contractors to easily manage product data for strategic defense equipment, arms, vehicles, and vessels. SolidWorks full-featured data management solutions offer the ability to:

- Securely store and index product information for fast retrieval by authorized personnel
- Easily implement, administer, and customize workflows, datacards, and rights management to meet product guidelines and development processes
- Replicate vault for localized file retrieval
- View and print documents in 250 file types, including major CAD formats, Microsoft® Office, images, and animations, etc. to ensure unmatched productivity

PAST PERFORMANCE

SolidWorks and SolidWorks Enterprise PDM are used extensively to design and manage SIGINT Quick Reaction capability projects to support the Warfighter. The software has streamlined the overall design process and has provided the ability to collaborate more effectively. Specifically, the implementation of SolidWorks Enterprise PDM ensured the correct engineering data was transferred to manufacturing. This significantly reduced manufacturing costs and improved overall project management.

US ARMY, (I2WD) Intelligence and Information Warfare Directorate,
SIGINT Quick reaction division, (FIFF) Fabrication integration
Fielding facility - (APG) Aberdeen Proving Ground

DIFFERENTIATORS

An Enterprise PDM data vault is powered by Microsoft® SQL Server® centralizes the storage of all engineering data and related files to dramatically reduce time spent searching and managing parts, assemblies and drawings in multiple CAD formats.

- Easy to Implement, Easy to Use, Low cost of ownership
- Multiple interface options with legacy ERP/MRP systems
- Provides Secure Access Internally and Externally, Enables ITAR Compliance
- Prevents Data Loss and Promotes Re-Use of Design Data
- Provides Version and Revision Control
- Easily Designed, Automated Workflows to Streamline Processes

PRODUCTS

SolidWorks Enterprise PDM

COMPANY DATA

Founded in 1993 and headquartered in Waltham, Mass., DS SolidWorks has 1.9 million users worldwide at 165,000 companies with thousands of software licenses at over 75 U.S. DOD locations. Annual revenue is \$481 million and growing.

GSA Schedule Contract Number:
GS-35F-4754G LYME Computers

NASA Sewp IV Contract Number:
NNG07DA46B Alvarez and Associates
SDVO/SB

AFNIC approved list,
Army CON CERT-201109455 and
CERT-201007610

DS SolidWorks Corp. is actively partnering to expand our contract vehicles.
